VISION

We aspire to be a leading world class medical institution offering affordable education to students from all around the world where students are enabled to become exceptional doctors, serve humanity and build a better world together by offering their healthcare services to those in need.

MISSION

The Asian Medical Institute is committed in its pursuit of excellence to provide the best academic facilities and atmosphere to its students. Our mission is to train future leaders of medicine who set new standards in knowledge, caring, and compassion. Our faculty is exceptionally well qualified and committed. Teachers provide a combination of nurturing support and challenge to the students to reach their maximum potential. We shall continue to transform the contents, methodology of teaching, and technological resources according to the dictates of time. To serve the health care needs of the world by educating health care practitioners to the highest international standards and stimulating innovation through research. Implementation of educational programs that meet the international standards through the quality training of competitive specialists, by integrating the best international practices in education, science, and clinics, based on the principles of evidence-based medicine.

CORE VALUES

- ☑ **TRUTHFULNESS:** Truth is the hallmark of all our values, principles, morals, and work ethics.
- ☑ **EQUITY:** We believe education and healthcare are for all.
- ☑ **CHANGE:** Change keeps us going, and good change is the focus of our innovation.
- ☑ **COMMITMENT:** When time goes hard, we go harder.
- ☑ **SUPREMACY:** We do the best we can and chase perfection to achieve excellence.
- ☑ **SUSTAINABILITY:** We make sure to keep going economically, financially, environmentally, and socially.

"A life saved is a family saved."

THE UNIVERSITY

S.Tentishev Asian Medical Institute is a private medical university located in Kant, near the capital of Kyrgyzstan, a beautiful landscape country in Central Asia. Established in 2004 with a vision to deliver the best medical education in an affordable manner and facilitate medical aspirants from all around the world to excel in medicine, clinical practice, research and patient care. AZMI has now become one of the fastest growing medical University in Kyrgyzstan and Central Asia region. Currently AZMI offers an international-Standard MD/MBBS/BDS programs based on international curriculum with clinical rotations and is chartered, licensed and recognized by of Ministry of Education, Kyrgyzstan. Registered and recognized by Pakistan medical commission, registered with Foundation for Advancement of International Medical Education and Research (FAIMER), and listed in World Directory of Medical Schools (WDOMS).

"Wellness is not the lack of sickness, but the capacity to overcome sickness."

Academic **OVERVIEW**

We have created an all-inclusive environment where students have access to a wide range of educational facilities, including tech-equipped laboratories, libraries, and competent faculty! To facilitate proper interaction, we arrange small-size batches facilitating personalized learning experience.

In our inclusive and conducive environment, when all our facilities, faculty members, and students culminate into one, it creates an atmosphere of academic excellence which immensely benefits our students and helps them become great doctors.

We maintain an environment of academic excellence to let our students focus on what matters most when they are at the University, i.e., getting quality medical education.

We follow a pragmatic approach to medical education where we provide our students an opportunity to indulge in various experiments in the laboratories, participate in seminars, contribute in community medical outreach programs, and get clinical experiences in AzMI affiliated hospitals and clinics

The medium of instruction followed in the University is English. All the faculty members teach the students in English language. The faculty provides total support to the student community and is backed by modern teaching aids, medical equipment, and computerized studying process.

At the University, we maintain a disciplined yet friendly environment of medical excellence where students are free to express themselves, raise their concerns, and get their issues resolved. Such a conducive environment enables the students to have a focused approach to their medical studies, research, and clinical experiences.

The university follows International Medical curriculum, and our competent faculty members deliver their best to let the students pragmatically understand medicine through classroom interaction, laboratory experiments, and various research and community-based projects.

In the campus, students and staff from different countries, cultures, and interests come together, share their values, forge lifelong relationships and connections, and become well-versed professionals who can compete in a global environment.

“When doctor saves a life, he also saves a family.”

OUR PROGRAMS

- ★ 5 Year English Medium Program
- ★ 6 Year English Medium Program

BDS/DDS PROGRAM

- ★ 5 Year English or Russian Medium Program

College PROGRAM

- ★ 5 College (2-4 Year Programs)

On the completion of Clinical Sciences Program, students come out as qualified doctors!

“An incompetent doctor practices, but a competent doctor per

Our LABORATORIES

At AzMI, our state-of-the-art laboratories provide a platform to unleash students' medical creativity and curiosity and drive the next innovation in the field of medicine. All the laboratories are well-equipped and provide hands-on practical training to the students in an artificial environment.

ANATOMY LABORATORY

Our Anatomy Lab is a place to confront real-life bodies and specimens to correctly understand the internal structure of the human body, its organ systems and biological processes, various body positions, and related aspects of biology. Anatomy lab is very instrumental for students in learning to heal injuries of other people.

PHYSICS & CHEMISTRY LABORATORY

Physics & Chemistry Lab provides tools to go deeper into the subject, which is instrumental in learning diagnosis and treatment of various diseases in a better way and is equipped with necessary facilities to clarify ambiguity, decode the complexity on the subject, and conduct research in wide subdisciplines of Physics & Chemistry.

PATHOLOGY LABORATORY

Pathology Lab helps in the scientific study of the diseases, develop an expert understanding of the nature, genesis, and effects of different diseases and injuries, obtain a deeper understanding of biosciences and best medical practices, applying scientific methods, and learn the best art of detailed examination of the body.

SIMULATION LABORATORY

AzMI, has dedicated space to facilitate learning from healthcare simulation. Simulation-based teaching of medicine helps in creating an artificial environment of real-life health challenges faced by the physicians and professionals working in a clinical setting and let the students develop real skills to solve those challenges.

MICROBIOLOGY LABORATORY

Microbiology Lab facilitates the study of cells, tissue structure, immune system, bacteria, viruses, blood, urine, various fluids in body cavities and tiny organisms of the human body to gain an in-depth understanding of human body required to perform diagnosis procedure and prescribe adequate treatment for the patients.

COMPUTER LABORATORY

Computer lab is equipped with modern computers, projectors, high-speed internet which facilitates students to conduct online researches and keep an eye on latest developments and innovations in medicine. Computer Lab also helps students explore how computers are used in different medical settings.

"Bitter medicine gives the best healing."

"A good doctor cures the disease, but a great doctor cures the cause."

Our RECOGNITIONS

University CAMPUS

Academic excellence and challenges, personal growth and development, friends and connections, memorable experiences, nature, fun and enjoyment, a feeling of satisfaction, and the achievement of your ultimate dream of becoming a doctor – you'll have it all at the Campus!

Lively, vibrant University Campus and a friendly and co-operative culture make sure that you get the very best of your medical journey in terms of the perfect blend of quality medical education and quality life.

AzMI campus represents a conglomerate of all the facilities and services that the University offers to every student as a precious medical aspirant. From housing modern classrooms to technology-equipped laboratories, our campus provides properly-furnished and well-equipped hostel facilities with all the essential amenities required for a decent living.

The staff of the hostel takes care of proper cleaning measures and ensures a healthy environment for the students.

Entire university campus is air-conditioned, provides free Wi-Fi facility, and is packed with 24/7 security, which ensures the safety and security of all university members.

We maintain proper mess facility to provide healthy food. Our campus culture is very friendly and embraces all the students with equality and equity.

To keep the students refreshed, we keep arranging extra-curricular and rejuvenating activities on various occasions and holidays. Diverse personal growth and development activities and community programs are also arranged for the overall growth.

Non-academic activities in the University make sure that our students don't come out as medical junkies but wholly developed medical professionals who are experts in an essential aspect of living, i.e., the way to live life and care for humanity!

At the university campus, we maintain an All-Inclusive-Culture, which ensures no one is left behind and all get a fair and equal share of opportunities that we offer.

“Medicine is not a science; it is empiricism founded on a network of blunders.”

Accommodation

Our hostels are located near the center of city and are on walking distance to every necessity students need. Girls have separate hostels and all hostels are equipped with 24/7 security. Our hostels have dining room, laundry room and WIFI facility. All the hostels are centrally heated in winter and provide student with every need possible.

Food

We provide our students with pakistani food which is cooked by Pakistani chefs and is delicious and hygienic. Food is provided 3 times a day according to taste and priorities of students. Menu is also updated with time according to demand of students.

Sports

We encourage our students to take part in all type of sports activities which help the students to stay healthy and pursuit their dreams. Our university is equipped with a gymnasium and dedicated sports teacher which guide students about exercise and sports regularly. Different tournaments are organized occasionally and Students are encouraged to take part in them.

Rector Message

*Dear Students,
take this opportunity to re-affirm my faith in the educated youth of Kyrgyzstan, as the future of the World actually lies in their hands. Our vision of an enlightened and progressive Kyrgyzstan can never materialize until we manage to bring about much-needed improvements in our education system particularly in the field of medicine.*

Viewed in this perspective, medical colleges and universities have an important role to play, as the entire responsibility of providing quality education cannot be shouldered by the Public Sector alone. Asian Medical Institute has been established with the aim to live up to the standards of medical education and to compete at National and International levels.

*Doctor of Medical sciences, Professor,
Selpiev Toychubek Tulekovich*

Our FACULTY & STAFF

Faculty members at AZMI are highly qualified and bring with them an innumerable treasure of years of medical experiences. Our faculty members are recruited from various countries including India, Pakistan , the CIS region, and from other countries on the basis of their expertise, specialization, experience, friendliness in dealing with the students, and their outlook towards medical aspirants and medicine as a whole supported by their track record.

Our teaching staff is competent, concerned, and committed to provide high-quality medical education. AZMI faculty members are highly qualified and have extensive experience in their respective areas of expertise. Further, our student-teacher ratio ensures that special attention is given to every student.

Our faculty members are not just good mentors for our students but they are good friends as well. Students are provided full liberty to discuss their problems with their mentors and professors in an open environment, and our staff makes sure that concerns of all the students are resolved at the earliest. Education in such a friendly atmosphere provides a sense of relaxation and allow the students to concentrate on their learning.

The friendly nature of faculty, their zeal for teaching, and unconditional support to solve students' problems ensure a proper academic environment for all the students to make them complete medical professionals.

FACULTY & STAFF

“The physician should not treat the disease but the patient who is suffering from it.”

“Before you examine the body of a patient, be patient to learn his or her story.”

Vice-Rector Message

Dear Students,
College is housed in a purpose-built compound providing all the bio-medical and technical facilities for imparting training in the technical skills required by a medical and dental graduate.

Another important area of interest in the college is continued medical education programs in which the college and the attached Hospitals arrange seminars, conferences, and on hand skill programs. The various special workshops are organized by AzMI. which are attended by our teaching staff and the students. There is a full-fledged traditional library along with a computer-based online digital library with access to more than 17,000 online journals/magazines. Apart from the well-organized Academic activities all the literary and sports extra-curricular activities are taking place here. This is because of the hard work put up by the students who are continuously being guided and trained by a very experienced and dedicated team of faculty members.

Vice Rector for Scientific and Academic work

Professor Builashev Talaibek Sabralievich

PROFESSOR PUBLIC HEALTH ADMINISTRATION

Deans Message

Dear Students,
Medicine is not just an occupation or a career but a profession. We at Asian Medical Institute strive to instill in our students an appreciation of the meaning of service, a love of learning that will stay with them throughout their professional lives and a sense of duty to their patients, their colleagues and their community. Asian Medical Institute's program in medical education is designed to foster excellence in the future leaders of medicine. The focus of our educational program is not merely the transfer of information but the transformation of the learner in a culture providing that ingenious combination of support and challenge that leads to education. We have designed a program to provide a broad, rigorous and flexible foundation that will enable students to reach their highest potential of achievements.

Dean of the General Medicine Faculty

Dr. Liukhurov Ruslan Nabievich

Surgeon

Vice-rector of International affairs

Dear Students,
Welcome to Asian Medical Institute. I congratulate you on your successful completion of the entry requirements, and wish you all the best, during your stay with us.
Asian Medical Institute has been our endeavor to direct our vision from future to the unending. Further, we invite you, and show you its picture in our excellence of delivering in medical fields. We are highly capable and extremely viable in our field as we keep on searching, researching, exploring and collaborating at international education.
It maintains harmony, discipline and strictly follows the academic calendar. We are blessed with knowledgeable, dedicated and distinguished academic as well as scientific and student friendly administrative staff. We are committed to prepare our students to work hard and acquire skills helpful for the construction of knowledge societies.
I am here to help you in every matter regarding your stay here in Kyrgyzstan and achieving your goal to become a doctor. I hope that the Institute will live up to your expectations, and you will enjoy being with us.

Dr. Muhammad Aamir Hayat

M.B.B.S, M.D, (Internal Medicine)

Head of International Affairs

“As to diseases, make a habit of two things – to help, or at least, to not harm.”

“A story – a true story – can heal as much as medicine can.”
